With only one previous owner, this 2022 Tesla Model 3 Performance is a superb example of a modern electric vehicle. The Model 3 Performance comes with four-wheel drive and an 82 kWh battery, offering a manufacturer-quoted range of up to 340 miles when new. This particular model boasts heated front seats for added comfort, along with keyless entry and remote control via a dedicated app. Front parking sensors and a park assist camera make maneuvering simple, while keyless go enhances convenience. Charging at home using a 7kW charger takes around 12 hours for a full charge, while rapid public charging can boost the battery from empty to 80% in as little as 26 minutes. The large boot offers plenty of storage. The acceleration is a real plus, allowing you to go from 0-60mph in just 3.1 seconds, demonstrating its superior performance compared to similar vehicles.
