With only one previous owner, this 2023 Tesla Model 3 Long Range is an excellent choice. As an electric vehicle, this Model 3 boasts a Long Range trim and a substantial 78 kWh battery. The vehicle includes a dual wireless phone charger, blind spot warning, pre-conditioning with air conditioning, driver door unlock mode, and brake disc wiping. The Tesla Model 3 Long Range stands out with its impressive range of up to 394 miles when new, meaning fewer stops on long journeys. The vehicle also benefits from a large boot space, offering practicality and convenience for all your storage needs. Charging at home using a 7kW charger takes approximately 12 hours for a full charge, while rapid public charging can replenish the battery from empty to 80% in as little as 25 minutes.
