

### 2023 USED 64kWh SE Long Range Auto 5dr

color:

Mileage:

**11130**

Transmission:

**Automatic**

Price:

**£14,558.00**

Registration:

**HW23KFE**

Fuel:

**Electric**

With only one previous owner and low mileage of just 11130 miles for a 2023 registered vehicle, this MG MG4 SE Long Range is a great choice. As an electric vehicle, this model offers a modern driving experience. The car comes equipped with automatic headlights, including automatic activation, rear parking sensors with rear parking assistance, and adaptive cruise control. For entertainment and connectivity, Android Auto is included, and climate control ensures a comfortable environment for all occupants. The SE Long Range trim indicates that this vehicle has a large boot space, making it more practical than similar vehicles. The 64 kWh battery provides a maximum range of 281 miles when new, offering substantial range. Charging at home using a 7kW charger takes approximately 10 hours for a full charge. For faster charging on the go, using a public charger can bring the battery from empty to 80% in just 34 minutes.
