

2024 USED 50kWh GS Auto 5dr

color:

Mileage:

4331

Transmission:

Automatic

Price:

£16,058.00

Registration:

KB22MRB

Fuel:

Electric

This is a 2024 Vauxhall Mokka Electric GS, an all-electric car with very low mileage of only 4331 miles and only one previous owner. The GS trim comes equipped with a host of features designed to enhance your driving experience. The Front Camera System, including Parking Assistance, makes navigating tight spots a breeze, while the Panoramic Rear View Camera provides added confidence when reversing. Stay comfortable with Electronic Climate Control, and keep connected with the 10in Multimedia Navi Pro, featuring Live Navigation, Android Auto, Apple CarPlay, and Bluetooth. LED Headlights ensure excellent visibility in all conditions. With a 50 kWh battery, this Mokka Electric offers a maximum range of 210 miles when new. Charging at home using a 7kW charger takes approximately 7 hours 30 minutes. For those needing a quicker charge while on the go, the Mokka Electric can achieve an 80% charge in just 30 minutes at a rapid public charging point. This impressive charging capability means less time waiting and more time enjoying the open road.
