**Electric**

With only one previous owner, this 2022 Polestar 2 Long Range offers an excellent opportunity to experience electric motoring. This four-wheel drive vehicle boasts a 78 kWh battery, ensuring a smooth and powerful ride. The Long Range trim comes generously equipped with several desirable packs. The Pilot Pack enhances safety with Blind Spot Assistance and Adaptive Cruise Control, complemented by LED headlights and a 360-degree camera for easy parking. The Pilot Lite Pack mirrors some of these features, including Blind Spot Assistance, Adaptive Cruise Control, and the 360-degree camera. The Plus Pack elevates comfort with a fixed panoramic sunroof, a premium sound system, heated memory seats, a heated steering wheel, and wireless phone charging. The Performance Pack enhances the driving experience, while stylish 20-inch alloy wheels complete the look. The original battery range was an impressive 301 miles, showing how this vehicle was ahead of its time. The large boot space makes it more practical than similar vehicles, and the rapid acceleration, reaching 0-60mph in just 4.5 seconds, demonstrates its superior performance. Charging at home (7kW) takes around 12 hours, while public charging can replenish the battery from empty to 80% in as little as 40 minutes.
