The Volkswagen ID.4 Pro Performance 1ST Edition, registered in 2021, is an all-electric car that combines practicality with modern technology. The 1ST Edition trim offers a range of features designed for comfort and convenience. LED headlights with automatic driving light switching, along with LED tail lights, ensure excellent visibility. Manoeuvring is made easier with the rear-view camera and parking assistance. The Air Care Climatronic 2-zone air conditioning system provides a comfortable environment, while heated front seats and a leather heated multifunction steering wheel add a touch of luxury. With a substantial battery capacity of 82 kWh, this ID.4 boasts a maximum range of 310 miles when new, meaning you can enjoy longer journeys with fewer stops. Charging at home using a 7kW charger takes approximately 12 hours and 40 minutes for a full charge. For quicker top-ups, public charging can take you from empty to 80% in just 40 minutes. The large boot space means that this vehicle is more practical than similar vehicles, offering ample room for luggage, shopping, or anything else you need to transport.
