Electric

This is a 2021 Ford Mustang Mach-E Extended Range, an all-electric car with four-wheel drive. It comes equipped with BLIS - Blind Spot Information System with Cross Traffic Alert, including Blind Spot Assistance, Adaptive Cruise Control with Stop and Go and Lane-Centering, including Adaptive Cruise Control, and front and rear parking sensors. The parking assistance features both front and rear sensors. The vehicle also boasts an E-Latch Keyless Entry System, which incorporates a B-Pillar Keypad Access, and Adaptive LED Mustang Signature Headlamps. Having had only one owner from new, this vehicle is ready for its next adventure. With a battery capacity of 99 kWh, this Mustang Mach-E had a maximum range of 335 miles when new, meaning you can enjoy longer journeys with fewer stops compared to similar vehicles with smaller ranges. Charging at home using a 7kW charger takes approximately 14 hours and 36 minutes. For quicker top-ups, public charging can take the battery from empty to 80% in just 51 minutes. Furthermore, this vehicle can accelerate from 0-62mph in just 5.8 seconds, demonstrating its impressive performance capabilities when compared to similar vehicles.
