Mileage:

**77068**

Transmission:

**Automatic**

Price:

**£14,858.00**

Registration:

**WV21ZHZ**

Fuel:

**Electric**

With only one previous owner, this 2021 Tesla Model 3 Long Range is an excellent example of a well-maintained vehicle. The Long Range trim and four-wheel drive drivetrain combine to create a comfortable and capable electric vehicle. It comes equipped with adaptive cruise control, front and rear parking sensors, and a park assist camera to make driving and parking as easy as possible. The heated front seats add an extra layer of comfort for those colder mornings. The Model 3 boasts a large boot space, making it more practical than other similar vehicles. The 78 kWh battery provides a maximum range of 360 miles when new, exceeding the range of comparable models. Charging at home using a 7kW charger takes around 12 hours, while the fastest public charging time to 80% is just 26 minutes, making it more convenient than other electric vehicles.
