YB71BVX

Fuel:

Electric

With only one previous owner, this 2022 Audi e-tron Black Edition is a superb example of a well-maintained vehicle. As an all-electric, four-wheel-drive vehicle, this e-tron boasts a 95 kWh battery, offering a manufacturer-quoted range of up to 251 miles. The Black Edition trim adds a touch of sophistication, while the inclusion of Audi Matrix LED headlights with dynamic front and rear indicators, complete with coming and leaving home animations, ensures you'll always arrive in style. Inside, you'll find heated, electrically adjustable front seats with memory function for the driver, ensuring optimal comfort on every journey. The convenience of a rear-view camera makes parking a breeze, and the 2-zone automatic air conditioning maintains a pleasant cabin environment. Charging is convenient, with a full charge achievable in 14 hours using a 7kW home charger, or a rapid 40 minutes to 80% at a public charging point. The large boot space makes this vehicle more practical than similar vehicles, and the impressive acceleration, reaching 0-62mph in just 5.7 seconds, makes it faster than similar vehicles.
