

2021 USED Performance Plus 93.4kWh Auto RWD 4dr

color:

Mileage:

70624

Transmission:

Automatic

Price:

£35,058.00

Registration:

YM210FZ

Fuel:

Electric

This is a Porsche Taycan Performance Plus, registered in 2021. As an electric car, it combines Porsche's renowned performance with modern technology. It boasts a specification that includes ParkAssist with a reversing camera to make parking easier, front and rear heated seats for added comfort, and a tyre sealing compound with an electric air compressor for peace of mind. The interior is finished with a two-tone black and chalk beige smooth-finish leather, and the fixed glass panoramic roof enhances the cabin's sense of space and light. This Taycan has had only one owner from new. One of the great things about this Taycan is its impressive 93 kWh battery, which offered a range of up to 301 miles when new. Charging at home using a 7kW charger takes approximately 13 hours and 30 minutes. For those needing a quicker charge, it can achieve an empty to 80% charge in just 25 minutes at the fastest public charging points. This makes it a practical choice for both daily commutes and longer journeys, offering a blend of luxury, performance, and convenience that sets it apart from other electric vehicles.
