Mileage:

**13567**

Transmission:

**Automatic**

Price:

**£26,058.00**

Registration:

**YM22LRV**

Fuel:

**Electric**

With only one previous owner and very low mileage of just 13,567, this 2022 Ford Mustang Mach-E Extended Range offers a nearly new experience. As an all-electric vehicle, it provides a modern driving experience, complemented by features designed for convenience and safety. The vehicle is equipped with Adaptive Cruise Control with Stop and Go and Lane-Centering, enhancing your driving experience, especially on longer journeys. LED Reflector Headlamps provide excellent visibility, while the SYNC system with Connected Navigation and Natural Voice Search, including Bluetooth, keeps you connected and informed. The Mustang Mach-E boasts a 99 kWh battery, offering a maximum range of 379 miles when new, meaning fewer stops on long journeys than similar electric vehicles with smaller batteries. The heated steering wheel adds a touch of luxury, particularly on colder days, and the rear-view camera makes parking easier and safer. Charging at home using a 7kW charger takes approximately 14 hours and 36 minutes, while public charging from empty to 80% can be achieved in as little as 51 minutes, which is faster than many comparable EVs.
