YP22NZX

Fuel:

Electric

With only one previous owner, this 2022 Ford Mustang Mach-E Standard Range offers a unique opportunity to experience electric driving. This vehicle combines the iconic Mustang spirit with the efficiency of an electric powertrain. The convenience of the E-Latch Keyless Entry System, complete with B-Pillar Keypad Access, ensures effortless entry, while the SYNC system with Connected Navigation and Natural Voice Search keeps you connected on the go. Manoeuvring is made easy with front and rear parking sensors and a rear-view camera. Dual-zone electronic automatic temperature control ensures a comfortable environment for all occupants. The Mustang Mach-E's electric powertrain provides a smooth and quiet ride, with a battery capacity of 76 kWh offering a maximum range of 273 miles when new. Charging at home using a 7kW charger takes approximately 11 hours and 24 minutes, while rapid public charging can boost the battery from empty to 80% in just 43 minutes. This makes it a practical choice for both daily commutes and longer journeys, providing a seamless blend of performance and eco-friendliness.
